

# Report from Divisions and Other Committees 2014/2015

## July 2014

**Geotechnical Division:** To promote geotechnical engineering to the younger generation, the Day Camp for Geotechnical Engineers of Tomorrow was held in collaboration with the Civil Engineering and Development Department.

## August 2014

**Civil Division:** An "Inspire the Young" workshop on the use of gabions was delivered by Ir Y C Chan, former Head of Geotechnical Engineering Office of the HKSAR Government.

## September 2014

**Young Members Committee:** A technical visit was arranged for 24 participants to learn about 3D printing technology at a local company. The group was given a brief introduction on 3D scanning and rapid prototyping technology. They were amazed by the cutting-edge printing technology and how it might change the future of manufacturing.

## October 2014

**Building Services Division:** A career talk for building services engineering (BSE) students attracted the attendance of 70. Division Committee members from different sectors of the field, including Ir Patrick Cheung, Ir K T Cheuk, Ir Jonathan Lee, Ir Ethan Poon and Ir Andy Yuen, shared their experience in the BSE profession with students on the occasion.

**Civil Division:** The annual dinner with "Inspire the Young - Pride of Civil Engineering" as the theme was attended by more than 500 fellow members and guests. Sir Ir Gordon Wu was the guest of honour. Highlights of the evening were singing performances by the President, the office bearers of the Division and young engineers, followed by a dance performance by a team of kindergarten students. The performances demonstrated how engineers served our community, through which the message was passed to young engineers and students. A photo corridor was also created to highlight the major infrastructure projects that had supported our population and economic growth over the last 30 years.

**Ir Gary  
C W KO**  
Chairman of Gas &  
Energy Division

**Ir Rupert  
K Y LEUNG**  
Chairman of  
Geotechnical  
Division

**Ir Prof William  
H K LAM**  
Chairman of Logistics  
& Transportation  
Division

**Ir HO Sau Chiu**  
Chairman of  
Manufacturing &  
Industrial Division

**Ir Dr Alain  
K L LAM**  
Chairman of  
Nuclear Division

**Ir Dr Vincent  
T YNG**  
Chairman of  
Information  
Technology  
Division

**Ir TAM Chun Kit**  
Chairman of Mechanical,  
Marine, Naval  
Architecture & Chemical  
Division

**Ir Aldows H C TANG**  
Chairman of Authorised  
Person/ Registered Structural  
Engineer/ Registered  
Geotechnical Engineer  
Committee

**Ir Martin  
W T TSOI**  
Chairman of  
Structural  
Division

**Ir Stanley Douglas  
CHEESMAN**  
Chairman of  
Materials Division

**Mr Derek  
L Y MAN**  
Chairman of  
Associate Members  
Committee

**Ir Edwin  
K K LAU**  
Chairman of Safety  
Specialist Committee

**Electrical Division:** The 32nd annual symposium was held with the theme "Powering into the Future". An opening speech was delivered by the President. In addition to the keynote speech delivered by Ir Prof T S Zhao, a total of nine papers were presented. The symposium was well-received by more than 300 participants.

**Environmental Division:** More than 120 participants attended the annual reception of the Environmental Division. Ir Cary Chan, the guest of honour, shared his experience and views on green practice and how to nurture young engineers in the environmental and green building fields.

## November 2014

**Biomedical Division:** The Division set up an exhibition booth at Innocarnival 2014. During the event, an interactive game on "Life-sustaining Tools Developed by Biomedical Engineers", which simulated cardiovascular surgeries, was specially developed and launched to arouse the public's interest in applying engineering knowledge to medical and healthcare applications.

**Fire Division:** More than 500 guests and members joined the annual dinner and enjoyed the gathering of old and new friends. A keynote speech was given by the guest of honour, Mr S W Hui, Director of Buildings. Mr Hui spoke on the contribution and development of fire engineering in the building industry, particularly in upgrading the fire safety standards of the built environment in Hong Kong.

**Ir Ryan  
H L CHAK**  
Chairman of  
Young Members  
Committee

## Report from Divisions and Other Committees 2014/2015

**Information Technology Division:** The Division formed a delegation to visit the China Hi-Tech Fair to gain first-hand knowledge of the latest developments in the ICT industry. A special arrangement was made to reserve places for young members of the Division to join the delegation.

**Manufacturing & Industrial Division:** A total of 60 tertiary students studying related subjects joined the Young Engineers Programme and Student Project Competition 2014-15. The programme was designed to enhance their understanding of the routes to become professional engineers and career/professional development through a series of technical visits and seminars.

**Mechanical, Marine, Naval Architecture & Chemical Division:** A total of 13 participants supported the global United Nations Children's Fund campaign "Unite for children, Unite against AIDS" by taking part in a charity run to help raise funds for the campaign.

### December 2014

**Aircraft Division:** A technical visit to the Hong Kong Government Flying Service (GFS) was arranged for 30 participants. A briefing on the functions of the organisation ranging from firefighting to aerial survey was presented with photos and live footage of GFS in action. Participants demonstrated much interest by asking stimulating questions about repair overhaul and rescue experiences.

**Biomedical Division:** The three-day biennial Biomedical Engineering International Conference 2014 entitled "The Future of Biomedical Engineering - from Vision to Reality" was organised by the Division, drawing 500 attendees. World-renowned experts were invited to share knowledge and experience with participants on a wide spectrum of biomedical engineering topics, including medical imaging, medical technology applications, bioinformatics, etc. A medical software training course, paper presentations and the Best Student Paper Competition were also organised during the conference.

**Control, Automation & Instrumentation Division:** The Division was invited to be one of the supporting organisations and a member of the judging panel at the Second Primary Students Innovation Contest, which attracted 88 submissions from 136 students of 21 primary schools.

**Environmental Division:** With support from five host organisations/companies, namely CLP Power Hong Kong Limited, Swire Group, Hong Kong Productivity Council, Environmental Protection Department and The Hongkong Electric Company, Limited, the Job Shadowing Programme was launched to provide an opportunity for young people to explore the first-hand skills needed to succeed in today's and future job markets and to enhance their environmental awareness. A total of 110 tertiary and secondary school students took part in the programme.

**Information Technology Division:** The Division continued to host the Hong Kong ICT Awards: Best Innovation Award this year on behalf of the Office of the Government Chief Information Officer. The event attracted an overwhelming response from the industry.

### January 2015

**Safety Specialist Committee:** The annual dinner was held and attended by more than 200 participants. Ir C S Wai, Permanent Secretary for Development (Works) was the guest of honour on the occasion. The award presentation ceremony for the student project competition was also held during the dinner to show the participating students our appreciation of the enormous effort they made in researching the field of engineering safety.

### February 2015

**Associate Members Committee and Electronics Division:** Around 30 participants took part in a technical visit to the Satellite Earth Station in Stanley jointly organised by the Associate Members Committee and Electronics Division. In addition to gaining understanding of the satellite facilities, participants were introduced to the history and development of satellite networks and given presentations on major topics related to the satellite communications industry.

**Nuclear Division:** A career talk was arranged for 50 students studying nuclear and risk engineering at City University of Hong Kong. Speakers included Ir Richard Fung and Ir Ken Cheung. This career talk provided a good opportunity for students to have a direct dialogue with professionals working within the nuclear industry, so that they could become more familiar with the industry and its latest developments and better equip themselves for their studies. In the same month, the Division organised a seminar on "What Do We Learn from Starting New Nuclear Plants?" by Mr Jean-Marie Baggio of the World Association of Nuclear Operators (Hong Kong Office). Around 40 participants attended the seminar.

## March 2015

**Aircraft Division:** A group of 30 participants joined a technical visit to the Aviation Services Research Centre (ASRC) of the Hong Kong Polytechnic University. They were given overviews of ASRC and the aviation market, as well as an introduction of ongoing projects. Through the tour, participants were able to see the application of some world-class innovative technical concepts and their impact on the aviation industry.

**Building Division:** The 14th Building Division annual seminar, "Pursuing Excellence in Building and Construction", offered a constructive platform for professionals and industry practitioners to exchange views, experience, knowledge and innovative design that encourage sustainable and innovative building projects. Guests of honour and speakers included Ir Dr the Hon W K Lo, the President, Mr Eric Ma, Ir Philip Lai, Ir Anthony Chiu, Mr Marco Wu, Mr Tommy Wong, Mr Vincent Ng, Ir T S Chan and Ms Ada Fung. The seminar was well-received by some 250 participants.

In the same month, the Division organised a delegation to Chengdu. The visit aimed to provide an opportunity for Hong Kong engineers to meet with academics and representatives of engineering organisations in the city and to understand more about its building developments and prevalent building design and construction practices.

**Building Services Division:** Four experienced engineers from the Division, including the President, Ir Patrick Cheung, Ir Antonio Chan and Ir Joseph Lo, were invited to share their experience in different sectors of the field with 20 young engineers at a dinner gathering.

**Civil Division:** The seminar, "Inspire the Young - What a Civil Engineer Must Know", was held with an overwhelming response from more than 400 attendees, which provided an opportunity for our young engineers to acquire all-round knowledge and basic concepts on different aspects of civil engineering. Ir C S Wai, Permanent Secretary for Development (Works), was the guest of honour.

**Control, Automation & Instrumentation Division:** Sharing the Institution's goal of promoting career prospects in engineering and inspiring young people to join the engineering profession, the Division's annual symposium was themed "CAI Technology to Inspire the Young". The event attracted the attendance of 120 participants.

**Logistics & Transportation Division:** Officially launched in Session 2014/2015, the Division held its inaugural conference cum annual dinner on 6 March 2015. The

event was attended by 150 participants, including the guests of honour - The Hon Frankie Yick and Prof Anthony Cheung, Secretary for Transport and Housing, various speakers, members, as well as young engineers and students. The half-day conference covered the latest developments in sustainable transportation, civil aviation, town planning, multi-modal logistics, cold chain logistics and air cargo terminal developments.

**Mechanical, Marine, Naval Architecture & Chemical Division:** The Division continued to organise the Young Inventor Competition in 2015, to give secondary school students an opportunity to show their engineering creativity. The 250 participants this year were required to design and build a hydraulic rocket to deliver a paratrooper by applying their knowledge of robotics and dynamics.

**Young Members Committee:** A special event to celebrate the 30th anniversary of the Committee was organised. Mr Paul Chan, Secretary for Development, was invited to share with 60 young engineers on the topic, "Future Development of Hong Kong - Challenges and Way Out". In the same month, an overseas delegation to the Netherlands was arranged for 16 participants. With the theme "Living with Water, Building with Nature", our young engineers were offered a golden opportunity to explore different hydraulic engineering works protecting land against storm surges, as well as to study the Dutch waste management system with its high recycling rates and minimal landfill disposal; and experience green transportation at first-hand in the world's most bike-friendly country.

## April 2015

**Building Services Division:** The HKIE Student Chapters Joint Institutes Competition was organised with the theme of "Green Living in Hong Kong". The Competition attracted 35 entrants from various Institutes. The President, Chairmen and representatives of various Divisions served as judges for the Competition.

**Civil Division:** Three university sharing sessions on the theme of "Inspire the Young - The Way to Become a Professional Civil Engineer" were organised for 150 university students, providing a platform for them to meet our professional civil engineers and gain insights into career paths in different sectors of the industry. A clear message - that civil engineers contribute to various aspects of society and improve everyone's living standards and that students should be proud to be civil engineers in the future - was successfully passed to the students.

### Report from Divisions and Other Committees 2014/2015

**Electronics Division:** Being the annual flagship event organised by the Division, the HKIE Electronics Symposium 2015 attracted 200 participants. The symposium embraced key technologies, applications, insights and best practices for Internet of Things, providing a platform for engineers, academics, executives and students to exchange professional knowledge and discover new insights.

**Environmental Division:** The 2015 Environmental Paper Award was organised by the Division. An overwhelming number of submissions was received from academia as well as the private and public sectors on various management and technology topics such as carbon footprint reduction, waste-to-renewable energy, energy saving in buildings, solid waste management, water and wastewater treatment and waste separation and recycling. A prize presentation ceremony was held on 29 April 2015. Ms Christine Loh, Undersecretary for the Environment, was the guest of honour.

**Fire Division:** A 23-member delegation visited the Shanghai Fire Training School and Research Institute. The delegation also visited the Shanghai World Finance Centre and Shanghai Tower (China's tallest building) to see the latest fire engineering design.

**Geotechnical Division:** The Division organised a visit to the Western Service Reservoirs for 30 secondary school students. The programme included talks to introduce geotechnical engineering, background of the project and an update on cavern and underground space development in Hong Kong, followed by a guided tour of the reservoirs. In the same month, 25 participants joined the Division's technical visit to London, the UK. The visit aimed to enrich participants' knowledge in the latest geotechnical engineering research, design and construction practices. The delegation visited research centres at the University of Cambridge, construction sites of Crossrail and Victoria & Arthur Museum, and were given several technical talks by prominent engineers and researchers.

**Logistics & Transportation Division:** A 25-member delegation, including young members and students, was arranged to visit the logistics facilities and sites of transport infrastructure projects in Changsha.

**Manufacturing & Industrial Division:** The 2015 Manufacturing & Industrial Division gala dinner was attended by 150 participants with Ir Dr the Hon W K Lo being the officiating guest and the President being the honorary guest. The event not only brought together industry professionals and experts, product/process developers, researchers, academics and those interested

in innovation and technology, but also provided a platform for manufacturing & industrial engineering professionals to network, exchange views and share experience.

**Nuclear Division:** The Division held its Annual General Meeting and technical seminar on "Nuclear Power Plants in China and Our Environment". Dr M Y Tso Wong was invited to speak on the latest nuclear power plant developments in China and their impact on the environment in reversing the CO<sub>2</sub> emission trend.

**Structural Division:** The panel of judges chaired by Ir Prof Paul Pang assessed the Structural Excellence Award 2015 nominations.

**Young Members Committee:** A group of 40 children participated in the two-day Little Engineer Training Programme, which was introduced to let our future generation know more about engineering and our great engineering works through games, visits and interactions with practising engineers.

### May 2015

**Building Division:** As one of the most significant events organised by the Division, the annual dinner has always been well-supported by academics and professionals of the building and construction industry. This year, around 450 members and guests gathered on the occasion to renew friendship and exchange views and insights into new building and infrastructure trends.

**Electrical Division:** The Division has been organising the Electrical Model Design Competition for the past four years. Designed for secondary 1 to 3 students with the aim of arousing their interest in electrical engineering, the theme of this year's competition continued to be "Hydro Power". The panel of judges included Ir Dr Edward Lo, Mr T C Yee, Ms Cynthia Woo and Ir S K Ho. More than 140 students entered the competition.

**Gas & Energy Division:** The annual dinner of the Division was well-attended by 70 guests and leaders of the profession including Ir Dr the Hon W K Lo, the President and Ir Frank Chan, Director of the Electrical and Mechanical Services. The evening's highlight was the presentation of badges to all Past Chairmen of the Division to properly recognise their contribution.

**Geotechnical Division:** The theme of "Soil-structure Interaction: From Modelling to Observations" was adopted for the Division's annual seminar, which was jointly organised with the Hong Kong Geotechnical Society and supported by the Civil Division and Structural Division.

The seminar attracted around 700 participants, providing a platform for members across the three disciplines to exchange ideas. Mr S W Hui, Director of Buildings, was the guest of honour. The keynote speech was given by Prof H G Poulos and selected papers from the 20 received spanning a wide spectrum of topics covering material behaviour, design methodologies and case studies were presented.

**Logistics & Transportation Division:** A visit to the Hong Kong-Zhuhai-Macao Bridge (HZMB) construction site was organised for 40 participants. The group was received by the Deputy Chief Engineer of the HZMB Management Bureau and was presented with a simulated bridge model and a video introducing the mega project and the connectivity of the three places. The group also visited Hengqin, a newly-developed free trade zone next to Macau. The trip was relaxing yet informative.

**Materials Division:** The annual dinner and prize presentation for the Best Paper on Materials Record organised by the Division were held with an attendance of 150 participants. The Chairman addressed the annual dinner, expressing his gratitude to the honoured guests for their attendance and to the Committee Members for their hard work. He also presented cash prizes to winners of the Best Paper Award.

**Mechanical, Marine, Naval Architecture & Chemical Division:** Around 300 members and guests gathered for the annual dinner, which aimed to reinforce networking among members and strengthen professional collaboration with various sectors of the industry.

**Safety Specialist Committee:** Best practice sharing is very important to the success of safety management. The Committee organised their 2015 annual symposium under the theme "Best Practice for Health and Safety Engineering". More than 200 participants attended the Symposium. In the same month, the Committee invited Mr Eric Wong, Department Manager of United Christian Hospital's Physiotherapy Department, to conduct "Health Training for Office Safety and Display Screen Equipment" for more than 80 participants. Mr Chan shared practical tips on control measures to reduce office and display screen equipment hazards, as well as exercises to relieve stresses from daily work.

## June 2015

**Aircraft Division:** A series of 13 technical seminars were delivered to 800 participants taking part in the "Securing Safer Skies - International Conference" organised by the Division. Topics focused mainly on initial certification of aircraft and continuing airworthiness. The broad spectrum of aviation industries covered in the two-day event broadened views of participants and was surely inspiring to the younger generation in particular.

**Electrical Division:** Targeted at senior secondary school students, the Energy Innovation Project Competition has been organised by the Division since 2009. The aim of the competition is to encourage creative ideas for energy-efficient applications through the related promotional campaign. More than 300 participants joined the Competition this year.

**Fire Division:** A group of 15 participants met with Council Members of the Macau Institution of Engineers to exchange information and views on continuing professional development and potential joint events.

**Information Technology Division:** The Division took an active leading role in organising the Robocon 2015 Hong Kong Contest. Teams from local tertiary institutions utilised their technological and innovative skills to create robots for "Robominton" (i.e. Badminton Robo-Game), in order to compete for an opportunity to represent Hong Kong at the Asia-Pacific Broadcasting Union Robot Contest held in Indonesia in August 2015.

**Manufacturing & Industrial Division:** A technical visit to Beijing and Tianjin was organised for 30 participants. The delegation visited the China Science and Technology Association, key universities in Beijing and Tianjin, and some corporations in the Tianjin Economic and Technological Development Area.

**Structural Division:** Apart from organising more than 45 activities throughout the Session for continuous professional development of its over 6,300 members and promotion of the profession, to inspire young people to be future leaders in engineering, the Structural Division co-organised the "Structural Engineering Competition for the Youth: Paper Tower Challenge "起紙咁簡單!" with the Education Bureau (EDB) at the end of the Session, which aimed to instill in secondary school students their interest in structural engineering and develop their team spirit, logical thinking and engineering skills through the construction of a paper tower. The President and the Principal Assistant Secretary of EDB have been invited to officiate the Competition held in mid-July 2015 and more than 100 students from 26 secondary schools have registered for the event. Further, the Division also issued two explanatory handbooks on the Codes of Practice for Foundations and Precast Concrete Construction to enhance the understanding on the application of these codes by the industry.

Report from Divisions and Other Committees 2014/2015

A group photo taken in front of the Eurocopter EC155 B1 helicopter during the Technical Visit to the Hong Kong Government Flying Service (AC)

Mr Andrew GRIDLEY, Director of Operations of Aviation Services Research Centre, PolyU, introducing visitors to a device with robotic arms during the Technical Visit to the Centre (AC)

Visitors played the interactive game entitled "Life-sustaining Tools Developed by Biomedical Engineers" at the exhibition booth of BM Division at the InnoCarnival 2014 (BM)

All attendees practised exercises to release stresses at the Health Training on Office Safety and Display Screen Equipment (SSC)

Technical Visit to Precast Factory in Mainland China (ST)

A group photo taken at Dialogue with Experienced Engineers (BS)

Audiences enjoyed the first keynote presentation by Mr Jonathan GAEV of ECRI Institute at the Biomedical Engineering International Conference 2014 (BM)

A group photo taken at the HKIE Student Chapters Joint Institutes Competition 2014/2015 (BS)

A group photo taken at a high-rise residential complex construction site during the Delegation Visit to Chengdu (BD)

A group photo of Guest of Honour Mr Eric MA, Under Secretary for Development (8th from left); Opening Address Speaker Ir Dr the Hon W K LO (6th from left); Ir David CHAN, Chairman (7th from left) and members of BD Division Committee taken at the 14th Annual Seminar - Pursuing Excellence in Buildings and Construction **(BD)**

Guests sharing experience in the BSE profession at the Career Talk for BSE Students **(BS)**

A group photo of Guest of Honour, speakers, Division Chairman and Committee members taken at the Civil Division Seminar 2015 on "Inspire the Young - What a Civil Engineer Must Know" **(CV)**

A group photo of fantastic performers including the President, Fellow Members, young engineers and K3 students taken at the Annual Dinner - "Inspire the Young - Pride of Civil Engineering" **(CV)**

A group photo taken at a University Sharing Session on "Inspire the Young - The Way to Become a Professional Civil Engineer" held at PolyU **(CV)**

The International Conference on Securing Safer Skies was well-received by more than 800 participants **(AC)**

Welcome Address by Ir Eddie LOCK, Deputy Organising Committee Chairman of the Annual Symposium on "CAI Technology to Inspire the Young" **(CA)**

A group photo of guests, judging panel and winners taken at the 2nd Hong Kong Student Innovative Invention Contest **(CA)**

Report from Divisions and Other Committees 2014/2015

A group photo of Guests of Honour and the finalist school teams of the Energy Innovation Project Competition (EL)

More than 300 participants attended the Annual Symposium on "Powering into the Future" (EL)

A fruitful panel discussion on the future of Internet of Things (IoT) held at the Hong Kong Electronics Symposium 2015 on "Sustainable IoT Development for Smart Cities" (EN)

A group photo of students, judges and Organising Committee members taken at the Electrical Model Design Competition (EL)

Members had a joyful visit to the Satellite Earth Station at Stanley (EN)

Students visiting the ElectriCity at Castle Peak Power Station of CLP (EV)

A group photo taken at the Shanghai Fire Research Institute during the Delegation Visit to Shanghai (FE)

Workshop of the Little Engineer Training Programme (YMC)

Ir Richard FUNG (Middle) and Ir Ken CHEUNG (Right) of NE Division received souvenirs from Mr Ray CHENG, Chairman of the HKIE Student Chapter - CityU at the Career Talk to CityU's Nuclear and Risk Engineering Students (NE)

A group photo of the delegation taken in front of the Schofield Centre, Cambridge University during the Technical Visit to London, the United Kingdom **(GE)**

Ir W F CHUNG explaining the operation of the service reservoirs during the Secondary School Student Visit to Western Service Reservoirs **(GE)**

Ir Dr Alain LAM (Right), Chairman of NE Division presented a souvenir to Mr Jean-Marie BAGGIO (Left) at the Seminar on "What Do We Learn from Starting New Nuclear Plants?" (NE)

A group photo taken at the SSC Safety Symposium - Best Practice for Health and Safety Engineering (from L to R) - Ir Dr Jeffrey YUNG, Ir K C LAU, Ms Jo LING, Ir Victor CHEUNG, President, Guest of Honour Ir C K HON, Mr Steve HOWARTH, Mr Lawrence HO and Ir Dr Joseph CHI (SSC)

A group photo (from L to R) of Ir Dr Jeffrey YUNG; Ir K C LAU; Ir Victor CHEUNG, President; Guest of Honour Ir C S WAI; Ir Edwin LAU; Ir Dr Joseph CHI and Ir Raymond WONG taken at the Annual Dinner (SSC)

## Membership of Divisions/Committees

(as at 29 June 2015)

Division/Committee		Membership
Aircraft Division	AC	662
Associate Members Committee	AMC	1,135
Biomedical Division	BM	371
Building Division	BD	2,691
Building Services Division	BS	5,746
Civil Division	CV	9,513
Control, Automation & Instrumentation Division	CA	1,531
Electrical Division	EL	3,629
Electronics Division	EN	1,594
Environmental Division	EV	5,178
Fire Division	FE	796
Gas & Energy Division	EG	1,327
Geotechnical Division	GE	4,963
Information Technology Division	IT	2,748
Logistics & Transportation Division	LT	307
Manufacturing & Industrial Division	MI	996
Materials Division	MT	720
Mechanical, Marine, Naval Architecture & Chemical Division	MC	3,493
Nuclear Division	NE	310
Structural Division	ST	6,344
Safety Specialist Committee	SSC	6,731
Young Members Committee	YMC	5,353
