

Admission Requirements for the Environmental Discipline

Candidates applying for admission to the class of Member in the Environmental Discipline of the HKIE are required to have the following:

1. Academic Requirement

The academic requirement for Member in the Environmental Discipline is:

- an accredited honours degree, which meets the academic requirement for the Environmental Discipline.
- BSc (Honours) Degree Programme in Environment and Sustainable Development (3-Year Full Time), the Hong Kong Polytechnic University.
- BSc (Honours) Degree Programme in Environment and Sustainable Development (4-Year Full Time), the Hong Kong Polytechnic University.
- BEng (Honours) Degree Programme in Environmental Engineering and Sustainable Development (4-Year Full Time), the Hong Kong Polytechnic University (up to 2018/2019 intake).
- a relevant science degree such as in Biology, Chemistry, Environmental Science, Applied Science, "topped-up" with a Master's degree in engineering or equivalent.
- Other academic qualification will be assessed on individual merit.

2. Training/Experience Requirement

Scheme 'A'

3 years' training in environmental engineering + 1 year responsible experience.

General Experience Route

Candidates who have not undertaken pre-approved training will be required to have had a minimum of six years working experience, post academic qualification. Relevant fields in environmental include:

- Water Pollution
- Noise Pollution
- Air Pollution
- Solid and Hazardous Waste Management
- Energy Conservation
- Environmental Impact/Sustainability Assessment

- Environmental Technology
- Green Building Design

Candidates should have experience in more than one of the above fields such that they can demonstrate competence in at least one and general experience in the others. Candidates who satisfy the above requirements will be accepted for Professional Assessment. For details refer to Section 3 and 4 of "M3 - Routes to Membership".
