

**The Hong Kong  
Institution of Engineers**

**CANADA**  
**Visit 2024**

**8.4.2024 – 11.4.2024**

## Who the HKIE is

Originating in 1975 with around 2,000 members, the HKIE now boasts a membership over 34,000. All this time, it has never stopped evolving with the times. With 22 Disciplines, 19 Divisions, and a Corporate Membership recognised for the Hong Kong civil service, the HKIE will persist in its dedication to community service.

## Why we are here

Aligned with the Government's directive on talent trawling and enterprises attraction, our visit to Canada aims to enhance industry connection, strengthen our bonds with our members as well as various professional engineering institutions and engage local students' interest in Hong Kong's future development. By showcasing the abundant professional opportunities in our city, we aspire to attract talents to join us in serving our community.
