Dear Ir SHUM

**Mandatory Energy Efficiency Labelling Scheme (MEELS) - Revision of Code of Practice on Energy Labelling of Products**

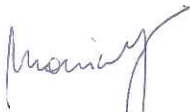

Thank you for your letter of 16 December 2016 inviting the Institution to put forth our views on the captioned subject.

The Institution in general agrees to the revision of the Code of Practice on Energy Labelling of Products.

With regard to Clause 13 .1 for the scope of Energy Efficiency Labelling for Storage Type Electric Water Heaters, we suggest that the storage type electric water heater with two heated volumes should also be included in the Scheme, as it is expected that more two-tank (two heated volumes) storage type electric water heaters will be introduced to the market due to their popularity.

Thank you for your attention.

Yours sincerely

Monica YUEN (Mrs)  
Chief Executive and Secretary  
The Hong Kong Institution of Engineers
