

Press Release

Newly Installed HKIE President Ir Prof Frank Chan Fan “Connect Minds, Empower Tomorrow”

(25 June 2026, Hong Kong) The Hong Kong Institution of Engineers (“HKIE”) is delighted to announce that Ir Prof Frank Chan Fan has been elected as the 52nd President of the HKIE at the 51st Annual General Meeting held on 23 June 2026, while Ir Alice Chow assumes the role of Immediate Past President of the Institution.

As 2026 marks the commencement of the Nation’s 15th Five-Year Plan (2026–2030), the engineering profession stands at a pivotal juncture in contributing to the Nation’s five-year development. Against this backdrop, President Ir Prof Chan has set the theme “Connect Minds, Empower Tomorrow” (匯聚智慧・創建明天) for Session 2026/2027, highlighting the importance of cross-disciplinary, cross-sectoral and cross-regional collaboration in navigating an era of profound global transformation and rapid technological advancement.

To ensure strategic continuity and forward-looking development, this Session will launch a three-year Strategic Plan anchored by three pillars: Sustainability, Evolution, and Engagement. Through systematic planning and phased implementation, the HKIE aims to reinforce the core values and institutional foundations of the profession, while strengthening its strategic positioning and professional contribution within Hong Kong and the broader national development landscape.

While the three pillars are interdependent, Sustainability will take centre stage this Session. In line with the commitment of both the Nation and Hong Kong to achieve carbon neutrality, Ir Prof Chan highlighted that, “The HKIE is dedicated to driving the profession’s trajectory in support of the United Nations Sustainable Development Goals”. He added, “During this Session, we will foster systematic carbon footprint management. Through actions, we aim to demonstrate professional responsibility and set an example.”

The Institution also plans to organise international forums and professional exchange initiatives to foster cross-sector collaboration, advance climate action, and promote sustainable urban development.

Amid rapid technological transformation, Ir Prof Chan emphasised that the profession must embrace Evolution by proactively exploring its role in frontier fields such as artificial intelligence, aerospace technology, and new industrialisation. By continuously enhancing professional capabilities and institutional frameworks, the HKIE will ensure that engineers remain at the forefront and play a leading role in the future.

The HKIE will also deepen its Engagement with members and the wider community, strengthening connections across sectors and enhancing public understanding of the profession's contributions to society. The Institution seeks to elevate the professional image and societal recognition of engineers, while collaborating closely with the education sector to nurture future talents for the ongoing advancement of the Nation and Hong Kong.

With over 40 years of experience in engineering and public administration, Ir Prof Chan has long been actively involved in the affairs of the HKIE and has contributed tirelessly to advancing the profession in various capacities. He is actively engaged in public affairs, serving as a Hong Kong Deputy to the National People's Congress and in other capacities. With his broad vision and extensive administrative experience, Ir Prof Chan aspires to lead the HKIE in seizing the opportunities presented by the 15th Five-Year Plan, further strengthening the engineering profession's strategic contribution to the development and prosperity of the Nation and Hong Kong.

At the meeting, it was also announced that Ir Rupert Leung Kwok Yiu and Ir William Luk Wai Lam were re-elected as Vice Presidents, while Ir Chiang Tung Keung was elected Vice President for this Session. The five new Elected Ordinary Members of the Council are Ir Steven Chan Nai Kin, Ir Anny Ip Kit Ying, Ir Luk Wai Hung, Ir Jacky Ng Kai Cheung, and Ir Kelvin Wong Ka Wing.

Please refer to the attached list of all Council Members of the HKIE for Session 2026/2027.

Biography of Ir Prof Frank Chan Fan

As a HKIE Fellow, Ir Prof Frank CHAN was elected as Vice President of the HKIE in 2023 and subsequently Senior Vice President in 2025. Beyond his key contributions to the Executive and Council, Ir Prof CHAN has been instrumental in driving the Institution's strategic growth, taking on a number of leadership roles across Boards, Committees, and Task Forces.

Ir Prof CHAN is a Fellow of the Hong Kong Academy of Engineering, an Honorary Fellow of the Institution of Mechanical Engineers, United Kingdom and a Professorate Senior Engineer of the People's Republic of China. He holds a Bachelor of Science in Engineering, a Master of Business Administration from the University of Hong Kong, and a Master of Science in Medical Physics from the University of Aberdeen, United Kingdom. He attended the Advanced Management Programme at the Harvard Business School, Strategic Management of Regulatory and Enforcement Agencies at the Harvard Kennedy School, National Studies at the Tsing Hua University and the Chinese Academy of Governance.

He is currently a Hong Kong Deputy to the National People's Congress, a Vice President of the Greater Bay Area Federation of Engineering Organisation, the Steering Committee Chairman of the Otto Poon Research Institute for Climate-Resilient Infrastructure of the Hong Kong Polytechnic University, an Honorary Professor of the University of Hong Kong, an Honorary Advisor of the Hong Kong Federation of Electrical and Mechanical Contractors and the Hong Kong Civil Servants General Union, as well as an independent non-executive director of the China Resources Land Limited, the China State Construction International Holdings Limited and the Beijing Urban Construction Design & Development Group Company Limited.

He was the former Secretary for Transport and Housing, overseeing policy and strategy, development and implementation of housing, logistics, air services, land and maritime transport. He was the Chairman of the Hong Kong Housing Authority, the Hong Kong Maritime and Port Board, the Hong Kong Logistics Development Council and the Aviation Development and Three-runway System Advisory Committee; and a Board

Member of the Airport Authority Hong Kong, the Hong Kong Mortgage Corporation Limited and the MTR Corporation Limited.

Prior to that, he was the Director of Electrical and Mechanical Services, spearheading policy initiatives and law enforcement on energy efficiency and safety of railway, tramway, ropeway, gas, electricity, lift, escalator and nuclear power; and providing professional advice and services.

Ir Prof CHAN is also the Founding Chairman of the Association for Engineering and Medical Volunteer Services, an Honorary Advisor of the Research Centre for Assistive Technology of the Hong Kong Polytechnic University, and an Advisory Committee Member for Innovation and Technology for Aging of the Hong Kong Council of Social Service.

With his distinguished leadership and extensive experience in engineering and public service, Ir Prof CHAN is well positioned in leading the HKIE for professional excellence. The Institution will also collaborate closely with counterparts in Chinese Mainland and overseas to “Connect Minds and Empower Tomorrow”.
