Session 2016/2017
- VII. List of Awards of
Session 2016/2017

Upon the Plinth of a Barren Rock - The mythos of where Hong Kong comes from. Engineers did contribute a lot in shaping the City. The YMC will take up the challenge and shape the people who shape the industry.

Standing on the Shoulders of Giants - If we have seen any further, that is by standing on the shoulders of many of our preceding sessions of committees.

PART I

32nd AGM Agenda

&

31st AGM Minutes

Mr. Eric HO Ka Chun (Proposer : Ms. Candy FUNG)	Mechanical	Hongkong Electric Company Ltd. Seconder : Ir Kenneth CHEUNG)
Ms. Yani KO Yik Yan (Proposer : Ir Kenneth CHEUNG)	Electrical	CLP Power Hong Kong Ltd. Seconder : Ir Ambrose CHEN)
Mr. LEE Hok Lam (Proposer : Ir CHAN Chi Man)	Civil	China State Construction Engg. Ltd. Seconder : Ir FAN King Fung)
Ir Vincent LEUNG Chi To (Proposer : Ir Kenneth CHEUNG)	Electrical	DSD, HKSARG Seconder : Ir Ryan CHAK)
Mr. Timothy LUN Zhuo Tian (Proposer : Ms. Candy FUNG)	Mechanical	CLP Engg. Ltd. Seconder : Ir Kenneth CHEUNG)
Mr. Joe WONG Chun (Proposer : Mr. LEE Hok Lam)	Civil	China State Construction Engg. Ltd. Seconder : Ir CHAN Chi Man)
Ms. YEUNG Hiu Fan (Proposer : Ms. Candy FUNG)	Electronics	PCCW Seconder : Ir Kenneth CHEUNG)
Ms. Emily YU Hay Ting (Proposer : Ir Ambrose CHEN)	Geotechnical	Atkins China Ltd. Seconder : Ms. Candy FUNG)

Total No. of Nomination: 12; No. of Vacancy of Committee Members for Session 2016/2017: 8

As the number of nominations for Committee Members exceeded the number of vacancies, a ballot was held.

Ir Leo CHAN and Ir Annie CHAN, Past Chairmen of YMC, were appointed as Scrutineers for the vote counting.

After voting, the following candidates were declared duly elected to be Committee Members of the YMC:-

Ir Ambrose CHEN Hao Ting	Mr. CHEUNG Tin King
Mr. Eric HO Ka Chun	Ms. Yani KO Yik Yan
Ir Vincent LEUNG Chi To	Mr. Timothy LUN Zhuo Tian
Ms. YEUNG Hiu Fan	Ms. Emily YU Hay Ting

6. A.O.B
The Chairman expressed sincere gratitude for the support and contribution of all committee members and helpers in the Session.

Ir Ambrose CHEN proposed a vote of thanks for the outgoing Chairman, Ir Kenneth CHEUNG, for his leadership in the Session.

There being no other business, the meeting adjourned at 19:25.

Recorded by:

Ir Ambrose CHEN Hao Ting
Honorary Secretary (2015/2016)
Young Members Committee
The Hong Kong Institution of Engineers

Date: 20 June 2016

PART II

Message
from Chairman

Thank you for all your continuous and unfailing support.

Since 1985, the Young Members Committee of the Hong Kong Institution of Engineers ("the YMC") has been serving the needs of young engineers in coping with different challenges and equipping them to adapt to the changes of the world. 32 years from then, engineers are now facing an ever-changing and entirely different situation in both society and the industry.

To let young engineers stand tall and be proud of being an engineer in our age of times, we aim to nurture Registered Young Members (RYMs, "the members") as future leaders and be the critical minorities for the changes we need in the industry and society. To the end of this Session, we strived to provide over 110 high-quality activities and services in achieving our mission to serve more than 5,000 members from 21 disciplines. The YMC stands alone as one of the most prominent young engineering bodies in Hong Kong.

The YMC would not be able to deliver our vision and achieve our mission, should we not have members' active participation; energetic coordinators in 12 working groups of the YMC; great efforts from our sincere helpers; and the continuous support from seniors in the HKIE, who the above have all devoted their precious private time and energy in serving our organisation.

I believe that these five attributes are essential to the success of our members and could facilitate them in tackling the challenges of our time and serving the community: - **"5C's - Confidence, Curiosity, Competence, Connections, and Complement"**

Confidence – Confidence comes from knowledge and practices. We have organised activities on interpersonal skills for members, trainings for helpers and career talks for engineering students.

Curiosity – "Be Passionately Curious". We have arranged a series of technical knowledge activities from aspects other than engineering, to allow a diversity of views for members and to develop an open-minded attitude towards different issues.

Competence – We are ceaseless and have held a series of technical seminars and visits to enhance the professional and multi-disciplinary knowledge of members. In particular, seminars, forums and workshops on social issues were held to equip our members with the latest information and raise their awareness of the needs of our society.

Connections – There are numerous events jointly organised with other societies in order to assist young engineers to keep in touch with other professions including accountants, architects, dentist, doctors, lawyers, surveyors, etc. Besides, we also cooperated with 9 student chapters to build connections between the HKIE, academic institutes and student unions. Hope that the connections could widen the exposure of our members and be beneficial for their future.

Complement – For our members' well-being, for physically, mentally and culturally, we have continued to organise various cultural events and to offer a mix of sports activities. By these, members could serve the needs of society and brainstorm the ways to help. Through these relaxations and community services, members shall be able to re-energise again and to keep their steps to a brighter future.

May we thank you again for all your contributions to the YMC in maintaining its reputation among the people and services to the RYMs, for you are an integral and vital part of the YMC.

It now begins the journey that will lead into the sunset of this Session, but I know that for YMC there will always be a bright dawn ahead. May I have my best wishes to the next fruitful Session.

Ms. Candy M Y FUNG

Chairman

PART IV

Highlighted Activities

Not to be Served But to Serve - These are the leading trains of activities of the year. The YMC goes out to the world to learn, goes into to the country to observe and comes back to our Home to serve.

Overseas Delegation 2017 to Iceland

Delegation Manager:

Ir Ambrose CHEN Hao Ting

Deputy Chairman

Climate Change: The Happening

With an aim to nurture our young engineers and to promote the professional image of engineers in Hong Kong, the YMC has organised, since 1991, delegations to various parts of the world, from bustling Dubai to liveable Canada. These delegations arouse young engineers' potential in leadership and encouraged them to learn from overseas practices.

This year, the YMC and the Continuing Professional Development Committee jointly organised a delegation to Iceland from 18 to 26 March 2017. It is our honour to have our President and seven distinguished senior members from the HKIE, who have been supporting us generously, to be our advisors.

The theme "Climate Change: the Happening" focuses on the impacts of climate change to our society in both the local and global dimensions, as well as how engineers, especially the younger ones, should equip themselves to fight against it. Although Iceland is a relatively less populated country, it is on the frontline of fighting against climate change. Melting glaciers, warming ocean and subsequent loss in the fishing industry are hitting hard on the lives of Icelanders. Nevertheless, gifted with the rich natural resources, Iceland is one of the pioneers in renewable energy and is also a "fossil fuel-free" country. Sixteen of our delegates, a good mix of young engineers from various disciplines, were missioned to experience the impacts of climate change in Iceland and to explore how the country fights against climate change and achieves to be "fossil fuel-free".

The delegation team had a fruitful exchange on the Icelandic energy and environmental policies with the Energy Authority (Orkustofnun) and the Environment Agency of Iceland (Umhverfisstofnun) respectively. Moreover, the team gained insights from the presentations given by the University of Iceland on the latest researches on Carbon Capture and Storage and engineers' involvements in their energy industry.

An exchange with the University of Iceland on the challenges of two societies

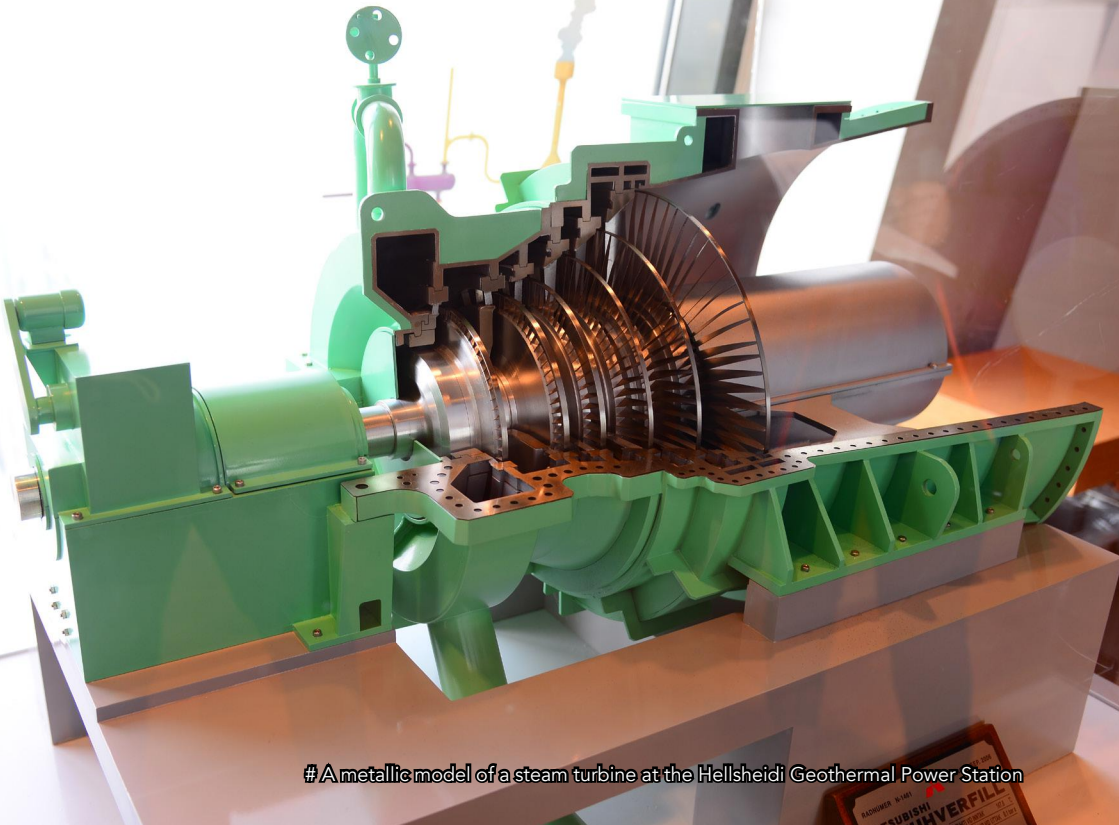

Hidden behind the stunning scenery of Iceland is the melting of glacier due to climate change

The Ljófágoss Hydropower Station demonstrated the importance of proper maintenance and asset management

A cultural visit to the Church and understanding of the Country's history of conversion to Christianity

#A metallic model of a steam turbine at the Hellsheidi Geothermal Power Station

The team also visited some of the spots that have been suffering from climate change. Our delegates were stunned by what climate change has brought to the world for real after visiting the Golden Circle and the shrinking Glacier Lagoon. They all hope to bring the insightful experience back to other of our young members.

The delegation team also arranged a series of local seminars and visits in relation to the delegation theme. The purpose was not only to enrich knowledge of our delegates and young members, but also to look into the ultimate question of this delegation theme: what should engineers, particularly engineers in Hong Kong, possess in order to fight against or adapt to climate change.

As an outcome of the delegation, the team would publish a report and organise a debriefing session to share their findings in June 2017.

On behalf of the YMC, I would like to express our sincere gratitude to our advisors, sponsors, hosting organisations and the delegates for their unconditional support and generous contributions in making this delegation a success.

#The Delegates in a visit to the Icelandic Green House - first of its kind in Iceland

西安市中心古城樓

陝西省 工程文化 考察團

考察團團長：

馮文君女士
主席

秦始皇兵馬俑博物館

西安為絲綢之路的起點，也是中華民族和文明的重要發源地之一。身為十三個朝代的首都，歷史文化資源一直以來都是西安的優勢，其地理位置更使西安承擔連接東西部的橋樑作用。因此西安不僅是陝西省省會、中國西北區域的中心城市、更是恆古通今的經濟、文化、商貿中心。

為此香港工程師學會青年會員事務委員會於本年度，2017年1月5日至10日從絲綢之路起點 — 西安探索，舉辦「陝西省工程文化考察團」。目的旨在瞭解不同工程領域的最新技術，彼此交流見解，建立友誼。考察團考察多個工程單位，包括航天推進技術研究院(航天六院)、航天動力技術研究院(航天四院)、閻良飛機城、西安秦華天然氣有限公司、比亞迪汽車製造廠及中國市政工程西北設計研究院，同時探訪極具歷史意義的兵馬俑博物館、秦始皇陵、大雁塔、陝西省歷史博物館及感受華山的巍峨壯麗，實行親身視察中國的最新發展與策略，並體驗西安文化歷史。

是次考察團得以成功全賴各方支持配合。本人謹代表香港工程師學會青年會員事務委員會，衷心感謝中國科學技術協會專程從北京到西安的親身接待；陝西省科學技術協會、西安市科學技術協會的隨團；中聯辦教育科技部的全力協助；各接待單位的悉心安排。我亦不忘感激各顧問、兩位副領隊余禧婷小姐及鄧懷德工程師、及四位組長傾力合作，使是次考察氣氛良好。我感謝各團友全程投入，希望日後有更多機會互相交流、增長見識，並期待將來繼續到中國內地其他省市參觀交流，瞭解更多不同的工程及技術發展，且親身感受不同地區的文化歷史。

Coordinator:

Mr. Alan LAM Ho Lun

Event Coordinator

Honourable Guests Officiating the Closing Ceremony

The "HKIE-YMC Mentorship Scheme (2014-2016)" finally reached the end of the Session and came to a fantastic ending. This scheme, which was also known as Growing Partners II project, is organised by the Boy's and Girls' Clubs Association (BGCA) and funded by the Child Development Fund. The purpose of this scheme was to establish mentorships between our young members and teenage mentees and to assist the mentees in developing their personal goals under the "saving programme".

Under the continuous collaboration between the YMC and the BGCA, the scheme was ended with a camp-fire night with the participation of our young members, the then-Secretary for Labour and Welfare Mr. Matthew CHEUNG Kin Chung, mentors, mentees, mentees' parents, the BGCA officials, and guests from the supporting organisations. Three of our committee members also joined as guests in this closing ceremony and were invited to set up the camp-fire with other honourable guests as the closing of the event.

Closing Ceremony of the 2014 -2016 Scheme

During the ceremony, our mentors and mentees shared their financial management skills and achievements made from putting the savings to good use. We had witnessed how the scheme helped the mentees to grow and had affirmed the meaningful contribution by the YMC to this scheme in the past three years.

The HKIE-YMC will continue to play a supporting role in this project in the upcoming 2017-2020 session. Mentor recruitment was completed in February 2017 with enrollments received from fifteen members, followed by the matching process in April 2017. We foresee that our mentors will continue to adopt their communication skills and to utilise their personal experiences in assisting the newly joined mentees to achieve mentees' personal goals. In addition, the YMC will continue to collaborate with the BGCA in the new Session and will provide additional support to our mentors in terms of expanding their networks. We hope to have an even more successful session together with the mentees in the next three years.

Working Group Reports

The Icelandic Green House - Where plants grow in warmth and protection, just like what the YMC could provide for young engineers.

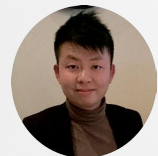

Students Promotion Group

Coordinators:

Ir Raymond MAK Ka Yeung

Committee Member

Mr. Dick YAN Fu Ho

Co-opted Member

The **Students Promotion Group (SPG)** reviewed and refined its role, in light of SPG's past achievements, and we mobilised all available resources solely for the promotion of the engineering profession to tertiary students, aiming to foster future leaders for the industry and for our own Hong Kong.

We delivered our vision and mission by three means.

By functions and events, both the organising committees and participants got a chance to learn and to grow. The SPG's "2-day-1-night Leadership Training Camp" held in Jan 2017 in the town of Sai Kung aimed to raise up participants' awareness on the soft side - leadership skills. The Student Chapters' "Engineers' Night" in March promoted the networking among schools and the connection between young engineers, experienced engineers and students in a business manner. The "Joint Student Chapters Competition" in April incorporated technical knowledge into innovation and public presentation and the winning team showed a broad vision and practicality of solving pollution problems in rivers in China.

A series of career talks throughout the session provided information and suggestions from alumni and trade leaders for students' advanced planning.

The HKIE established Student Chapters (SCs) to link the industry to students. The SPG appreciated this objective and was of the view that the joint-SCs collaboration and communication are of extra importance in maintaining this essential link. To uphold the standard of joint-SCs collaboration, the SPG assisted the SCs in establishing a set of reference materials for passing among sessions. The SPG had also established an inter-SCs communication platform for regular socialising events among the SCs.

Divisions of the HKIE have always been keen supporters of SCs' events, such as mentorship programme and career planning. The SPG arranged meetups for divisions and SCs. This is expected to facilitate their communication and planted the seeds of collaboration.

With the sincere assistance from all helpers, we hope to see the trees grow in the coming sessions. And all the world's a stage, so please play up, play up and play the game.

Engineers' Night 2017

Joint-Student Chapters Competition

Leadership Training Camp

Graduates Promotion Group

Coordinator:

Mr. Joseph FISHER Man King

Committee Member

The **Graduates Promotion Group (GPG)** provides a platform for all young members to get well prepared to become an engineering professional.

Similar to previous years, several "Young or Ready Series" workshops were organised to provide first-hand information from the experienced assessors and to give guidance to graduates on how to make a professional assessment successful. We were honoured to have support from the Structural Division, the Building Services Division and the Geotechnical Division to jointly organise these workshops.

On the other hand, soft skills training forms an integral part of a young engineer's development for strengthening the core competences for the application of technical knowledge. In this regard, workshops on professional writing, interview skills, and public speaking / presentation skills were organised. This year, a workshop on the discussion of safety elements in maintenance of buildings and the facilities inside was also organised to strengthen young engineers' awareness in this essential aspect.

The above events would not be so successful without the support of the speakers, helpers and participants. We hope the activities are useful in developing your competence for your route to become a professional engineer.

#Workshop on Public Speaking / Presentation Skill

#Workshop on Professional Writing

#Young or Ready Series: Dialogue with Experienced Building Services Engineers

Technical Seminar - How to Turn Complaints into Opportunities

Technical Seminar on HATS Stage 2A - Having a Finger on Every Pie of It

Seminars Group

Coordinators:

Ms. June YIP King Yan

Committee Member

Ms. Kahl CHEUNG Kar Man

Co-opted Member

The **Seminars Group (SG)** aims to enrich multi-disciplinary knowledge of our members. Echoing the theme “5Cs – Confidence, Curiosity, Competence, Connections, and Compliment”, the SG targeted two series of seminars, with the themes of Sustainability and Challenge.

Sustainability has become an essential element in the engineering industry. The newly built Combined Heating and Power System in Nethersole AHML Hospital drawn attention to the demands from development without compromising the needs of future generations; while the commissioned Harbour Area Treatment Scheme (HATS) Stage 2A is leading to a considerable improvement of Victoria Harbour’s water quality.

Challenges come along with opportunities. During this Session, the SG organised seminars on different grand engineering challenges including “Fire Safety in Old Industrial Buildings”, “Various Ground Improvement Methods in Reclamation and Marine Construction”, “Voltage Drop” as well as “Case Sharing on the Innovative Structural Design of Long Span Steel Footbridge for the Wings II”. Active discussions were always found at the end of the seminars, which encouraged more and more young members to gain knowledge from experts and to exchange ideas.

Last but not least, the SG would like to take this opportunity to express our greatest gratitude to all invited speakers and helpers for their support to the events. Without their help, the SG could not make such a fruitful year. We would like to thank all young members for their continuous contribution to the seminars, and we look forward to meeting more young members in the upcoming seminars.

Technical Visit to HKEx Next Generation Data Centre

Technical Visit to CLP Smart Grid Experience Centre

Technical Visit to Dunwell Waste Oil Treatment And Disposal Plant

Visits Group

Coordinators:

Ms. Fanny YEUNG Hiu Fan
Committee Member

Ms. Mandy HO Ka Man
Co-opted Member

“It is better to travel far than to read voluminously.” The **Visits Group (VG)** believes that this quote can also be applied to technical visits. Therefore, we devoted persevering effort to organise a series of technical visits for all young members, aiming at widening their horizons and deepening their understandings towards the latest development in the engineering industry. Moreover, our technical visits serve as a platform to facilitate knowledge sharing among young engineers from different disciplines.

Our visits covered a wide range of engineering disciplines such as Technical Visit to CLP Smart Grid Experience Centre, Steel Fabrication and Logistic Centre at Ping Che, HKEx Next Generation Data Centre, a World-class Electronics Assembly and Testing Centre, Shell Blending Plant and Lubricant Laboratory, Jockey Club Museum of Climate Change (MoCC), House of Dancing Water in Macau, DSD Siu Ho Wan Sewage Treatment Works, MTR Operation Training Centre, etc. All technical visits were actively participated.

Without the generous support from different parties of the visits, the VG could not have brought the events to success. We would like to take this opportunity to thank the kind arrangement from the host companies, fellow VG helpers and the YMC for assisting the working group in creating a rewarding year. Besides, we would like to extend sincere gratitude to all participants for their continuous support to our visits. We will continue to organise more inspiring visits for our members.

Other-Technical Programme Group

Team Building Workshop – Engineers Become Running Man
– Group Sense Development – a skill to be learnt but not inborn

Coordinator:

Mr. Logan CHAN Lok Heng

Committee Member

The **Other-Technical Programme Group (OPG)** was rebranded as part of the restructuring of the YMC in this Session. The aim of the group is to organise activities in the view of professions other than engineering, for example, surveying, medicine and science. From the experience sharing by other professions, engineers would be able to broaden their horizons and to benefit their career development.

OPG provided different meaningful events to our young members during Session 2016/2017 on developing their team spirit, communication, internal mind training, quality of life, and sense of care for our City. Below are the major highlights of our work in this Session.

The Marine Contact Series including seminars on marine life, ecology and scuba diving were held to remind young engineers in protecting the Earth because the Earth does not only belong to human beings but to all creatures.

Recognising that engineers work in groups, we organised group sense development events which provided a platform for members to coordinate with each other. Members formed into groups like "Running Man" for task challenges. Moreover, members joined "Intellect Training Workshop" to enrich their mental discipline where participants were involved in several problem-solving challenges to escape a locked room.

Young engineers attended sharing sessions from other professional field including Quantity Surveying and BIM Modelling. Young engineers had a chance to understand the views of other professionals on engineering matters. Engineering is always a multidisciplinary industry, young engineers shall learn how to think objectively and to make decisions while balancing the views from different stakeholders.

Finally, we would like to thank all helpers and participants during this meaningful year in helping and participating each of the events. We will continue to organise more interesting and meaningful events for our members.

Social Affairs Group

Coordinators:

Mr. Timothy LUN Zhuo Tian
Committee Member

Mr. Samson PUNG Chun Nok
Event Coordinator

Ms. Hidy YAN Tsz Tung
Event Coordinator

The goal of the **Social Affairs Group (SAG)** is to identify social challenges nowadays and to enhance young engineers' social skills through organising activities and workshops. Our events allowed participants to gain better self-understanding and also enriched young engineers' self-cultivation and personal development through interaction with others. In addition, we aim to promote engineering to the public with a better community engagement.

One of the flagship activities of the year was the "Engineering Hands-On Workshop for High School Students" in February. The workshop was successfully held with the generous support from the Education Bureau. The participated students gained a basic understanding of the engineering industry and also the bright future of choosing engineering as their career.

Another signature work of the SAG this year was to address the recent news and community actions. A series of "Engineers' Voice Discussion Forum" were held from January to March. The forum effectively caught attention of young engineers to current social issues including aging population, underground space development, recent policies on 2030+ and STEM education. Young engineers actively voiced out their opinions and raised questions to strengthen their social awareness.

Hosted by the YMC - in collaboration with the Association of Engineering Professionals in Society (AES) and the American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE), the Institution of Civil Engineers (ICE), the Institution of Engineering and Technology (IET) and the Institution of Mechanical Engineers (IMechE) - the "Future Engineers Project" was a one-day engaging programme where secondary school students were challenged to put on the engineer's thinking hat and to solve engineering problems with engineering solutions. This annual event had inspired our "future engineers" to appreciate engineers' role in society and to explore their self-potentials in this industry.

Engineer's Voice - Discussion Forum: Healthcare Solutions with Advanced Technology towards a Brighter Silvery Life

Engineering Hands-On Workshop for High School Students

Community Services Group

Coordinators:

Mr. CHEUNG Tin King
Committee Member

Mr. Alan LAM Ho Lun
Event Coordinator

In this Session, the **Community Services Group (CSG)** continued to provide a variety of meaningful activities, trainings and voluntary work for our young members to have a good opportunity to contribute to the community.

As we wished our members to help the people in need effectively, workshops on sign language and volunteer services soft skills were organised to equip our volunteers. The workshops allowed members to gain experience in designing community service activities as well as effective communication skills to the ones in need.

The increasing number of elderly became an issue of concern in Hong Kong and more and more care should be devoted to them. The CSG joined a one-year Volunteer Programme with the Yang Memorial Methodist Social Service Centre to visit elderly during winter and Tuen Ng Festival. We also sent Fortune Bags with our festival greetings to singleton elderly who lived on their own in the Wong Tai Sin District.

Voluntary Service to the Community

Volunteer Recruitment - Hong Kong Annual Archery Championships for the Disabled 2017

To help students in China to alleviate poverty by education, the YMC formed 5 teams to accept the challenge in "Sowers Action Challenging 12 Hours 2016". Besides the physical challenge, members also attended a seminar to learn more on the education donations in Mainland China.

Finally, we would like to thank all the helpers for their kind support and contribution to the CSG. We will continue to organise more meaningful and interesting events for our young engineers to learn, to have fun and most importantly, to contribute to our society.

Sowers Action Challenging 12 Hours Charity Marathon 2016 – Team YMC

Culture and Arts Group

Coordinator:

Ir Alan CHENG Siu Lun

Committee Member

Engineers should explore more on Hong Kong history and be exposed to different architectural designs. The **Culture and Arts Group (CAG)** continued to provide various meaningful activities to promote local culture and sense of art for our young members during Session 2016/2017.

History teaches us to move forward, to recognise and to learn from our past, and ultimately to create a better existence for all. Young members visited heritage buildings - Mei Ho House and Lui Seng Chun. During the tour to the two old buildings, young engineers learnt more about historic design.

Handmade Workshop of Leather Name Card Holder

We also organised a Leather Workshop as an interest class for our members. Participants learnt the comprehensive leather-sewing concept and practised their techniques. Our members gained hands-on experience in making a leather product, our members were provided with the chance to learn other knowledge apart from engineering. The workshop also served the purpose of relieving from tension and promoting the idea of work-life balance.

Young members experienced the indigenous culture in the New Territories during a Tour to Hong Kong Wetland Park and Ping Shan Heritage Trail. Located in the Ecological Mitigation Area (EMA), the Wetland Park visit particularly reinforced our participants' awareness on biodiversity. The Ping Shan Heritage Trail told the story of Hong Kong to our members from the late Yuan dynasty (1271–1368) to the modern times.

Finally, the CAG would like to express our sincere gratitude to all the helpers and participants during this meaningful year in the events held throughout the Session. We will organise more interesting and meaningful events for our members in the future.

Cultural Tour to the Hong Kong Wetland Park and Ping Shan Heritage Trail

Sports and Recreation Group

Coordinator:

Ms. WONG Lee Man

Committee Member

The **Sports and Recreation Group (SRG)** continued to promote the awareness of work-life balance and healthy life style among our young members. Several tailor-made activities were organised in this Session to enable a close bonding with the nature and our young members to foster sustainability and to pursue green living.

The SRG organised a day trip to the remarkable natural heritage of Hong Kong the Geopark at Tung Ping Chau and to Grass Island in February 2017. We received overwhelming responses from participants who were eager to learn more about the special geological formation of the islands while enjoying a refreshing break from the concrete jungle. We also had a chance to hike and climb on the special rocks at Tung Ping Chau.

Another day trip was held in March 2017 to visit a green farm at Sheung Shui where we learnt to live green and to reduce wastes. Instead of using modern cooking method, we built our own stove, brick by brick, and gathered natural firewood to cook our lunch. Besides, our members showed their energetic side by participating in the "CIC Sports Day" and attained good results. We also provided technical support for the Green Carnivals – "Mouse Tarp Car Tournament" with the aim of promoting environmental protection.

Last but not least, I would like to express my sincere appreciation to all helpers and participants for all your support throughout the Session. We will organise more interesting and meaningful events and I look forward to seeing you again in future events!

Let's Go Green

CIC Sports Day and Charity Fun Day 2017

Explore Hong Kong - Day Tour to Grass Island and Tung Ping Chau

Public Relations Group

Coordinator:

Ir Vincent LEUNG Chi To
Committee Member

It has been a fruitful year for the **Public Relations Group (PRG)** in this Session. We continued to strengthen our well-established bonding with other professional organisations by organising different types of activities such as social networking event, annual Christmas party, visit and test drive.

The session was kicked off by our annual flagship event – “Joint Society Christmas Party 2016”, which was jointly organised by the YMC and seven other engineering societies. The theme of the party was “Cartoon” and over 160 members from different societies enjoyed the party in their own creative forms of cartoons. The party was full of fun with games, lucky draws, and performances from Ir Dr. Hon LO Wai Kwok and Dr. LEE Ka Yan. The blast was then followed by a series of joint activities. A New Year gathering was organised with the HKIA and the HKIS with Mr. Tony IP, one of the “2016 Ten Outstanding Young Persons Awardees”, as our guest speaker.

All the members enjoyed the inspiring talk and the mingling moment with each other. By casual chitchat and perhaps some professional discussions in a relaxing environment with drinks and food, the bonding among the three institutions was strengthened.

Public Relations is so much more than media relations. Besides networking activities, the PRG organised different workshops to equip our members with enhanced public image skills and how to use latest media tools for engaging stakeholders in professional development. One of the examples was the interesting and informative joint visit to LinkedIn with the HKIA and the HKIP in June 2017. Around 60 members from the three institutions participated and had a fruitful evening meeting new friends. Members also gained insights on how to enhance their personal and company brandings on this top social media platform, and were taken on a tour around the office to experience the LinkedIn atmosphere.

The PRG had a remarkable Session in broadening our young members’ social networks and horizons. I would like to take this opportunity to send our most sincere thanks to all PRG helpers and all young members for their contributions and generous support in making every activity a success! Cheers!

Joint Professional Career Day 2017

One of the largest events of the year was the “Joint Professional Career Day” held in March 2017. This half-day programme was jointly organised by all 10 professional institutions and co-organised with the Education Bureau at Belilios Public School. Led by the YMC, the career day aimed to broaden secondary school students’ horizons and to explore different professional career opportunities in Hong Kong. More than 150 students joined the career day and were inspired by the keynote speech made by Ir Eric S.C. MA, the Secretary for Development of the HKSAR Government, and the presentations and experience sharing from our young professionals.

The YMC will continue to play the bridging role in YCPG of the HKCPS to establish connections between our members and other young professionals. We hope to see you soon in our upcoming functions!

Young Coalition Professional Group

The Hong Kong Coalition of Professional Services (HKCPS), founded in November 2001, is a non-profit making organisation for promotion of the common interests of Hong Kong professionals and to enhance their involvements in the social and economic development of Hong Kong.

The **Young Coalition Professional Group (YCPG)** under HKCPS was subsequently formed in 2012 to strengthen the connections among all young professionals. The YCPG is composed of young groups from 10 professional institutions, namely HKBA, HKDA, HKIA, HKICPA, HKICS, HKIE, HKILA, HKIP, HKIS and LSHK. Stepping into the fourth year since its establishment, YCPG further strengthened our well-established bonding with other young professional groups by organising different activities including networking event and joint forum.

Coordinator:

Ir Vincent LEUNG Chi To

Committee Member

Joint Professional Networking Party 2016

Human Resources Group

Coordinator:

Ms. Yani KO Yik Yan
Committee Member

The role of the **Human Resources Group (HRG)** is to strengthen the bonding among committee members and helpers and to provide training to helpers in preparing them with different skillsets in organising activities.

Like previous years, the HRG organised activities including Christmas Party and Birthday Gatherings to share the joyful moments among our committee members. The HRG also organised the Helper Re-union Day where both our current and freshly joined members enjoyed a wonderful afternoon in a full-house cafe.

Even more, a total of four Helper Training Sessions were held. The training sessions aimed to develop our helpers in multiple dimensions including their knowledge of the HKIE, event management skills and manner.

Human resources are valuable assets of any organisation. Yet helpers of the YMC are not only the foundation to the YMC, but also future leaders in the YMC and the engineering field. All our helpers are capable young professionals who are devoted to developing our City and industry. Beyond the ability to organise activities, we wish to inspire them on how to behave as a professional engineer with integrity, responsibility and a humble heart to serve. And we are sure that someday, they could pass their knowledge and experiences to the next generations of engineers.

Lastly, I would like to thank the enthusiastic HRG helpers for their support throughout the Session, earning HRG a great success with about 10 fruitfully organised activities this year.

HKIE Forever Young Alumni X YMC Dinner

In order to get the most out of the events, we uploaded electronic copies of activity reports onto our YMC webpage. Please stay tuned to get more updated news from the YMC. If you think that it is not the most convenient way to visit our webpage especially with a smart phone, you should probably try the HKIE Mobile App. After installing, select "Events", following by "Divisions", and tap on "YMC", you will find a list of fruitful and exciting events appear for choosing.

Another highlight goes to the use of social media for our communication purpose – the YMC Facebook page. The Facebook page provides another excellent platform for us to keep the young members informed of any updated news. We always appreciate your comments for us to strive for excellent service. Don't forget to give us a "LIKE" or feedback on our Facebook page!

Publicity and Webmaster Group

Coordinator:

Mr. Eric HO Ka Chun

Committee Member

With an aim to nurture the youthful professionals, the YMC organises over a hundred events such as seminars, visits and delegations for our young members every year. All members are welcome to register for our events via various promotion channels and this is one of the duties of the **Publicity and Webmaster Group (PWG)**. Apart from sending e-Newsletters and publishing in online Pinkpage to promote our activities, we also utilise our webpage and Facebook to broadcast our events and to share the experience and fun with our young members who are not able to join those meaningful events due to the overwhelming responses from members from all disciplines.

One Day Seminar Organising Committee

Coordinators:

Ms. Fanny YEUNG Hiu Fan

Committee Member

Ms. June YIP King Yan

Committee Member

Ms. Kahl CHEUNG Kar Man

Co-opted Member

The **One Day Seminar Organising Committee** (previously the Joint Young Professional Group) links up 6 young professional groups including the Chartered Institute of Arbitrators (CIArb), the Chartered Institution of Building Services Engineers (CIBSE), the Institution of Civil Engineers (ICE), the Hong Kong Institution of Surveyors (HKIS), the Law Society of Hong Kong (LSHK) and the HKIE. The ODSOC had been organising different activities for young members from the 6 institutions since its establishment in 2004.

Several events including social gathering, community services and seminar were organised by the the ODSOC to enhance our friendships with these peer institutions.

The signature event held by the ODSOC was the “One Day Seminar on Contract Management”, which had been holding for 12 years, attracting more than 250 young members among the abovementioned institutions every year.

Sr Daniel CHANG on the topic of “A Glance at Procurement Practice from Property Management’s Perspective”

Mr. Honic IP on the topic of “Different Forms of Contract”

Prize Presentation by the ODSOC Chairman Mr. Chris LAM (left) to Mr. Justin YUEN (middle) and Mr. Joseph CHUNG (right) on the topic of “Practical Tips for Negotiating Settlement”

Prize Presentation by the ODSOC Chairman Mr. Chris LAM (right) to Mr. Paul WONG (left) on the topic of “Good Practice on Construction Contract Management - Case Study on a Heritage Project”

Continuing with the achievements made from previous years, “One Day Seminar on Contract Management 2017” was held in April 2017 with overwhelming responses received from young members. Distinguished practitioners were invited to share their experiences including how they addressed contract issues and established new practices. As the chairperson of the organising committee for this event this year, the YMC was delighted that the seminar was held with success in the Christian Family Service Centre at Kwun Tong.

Thanks for the effort paid by the whole organising committee, speakers and helpers of the seminar. The young members in various professions gained insights into contract management from the talks and discussions. This collaborative success demonstrated the strength of the united effort contributed by young professionals from different industries.

Prize Presentation by the ODSOC Chairman Mr. Chris LAM (right) to Sr Vincent CHONG (middle) and Sr Andy MACK (left) on the topic of “An Introduction of Common Dispute Resolution Procedures in Hong Kong and a Brief Sharing of International Arbitration Practise”

Gift of Nature - Geothermal energy is harnessed for electricity generation and powering a city by the 'similar' principle of the foundation of the first Industrial Revolution, the steam engine. Activities are the foundations and power the YMC.

PART VI

List of Activities of Session 2016/2017

Date	Event	Jointly Organised	Speaker	Group
25-Jun-16	Technical Visit to Tsing Sha Control Area (TSCA)	-	-	VG
27-Jun-16	Sharing Insights from YMC Overseas Delegation 2016 to Russia -Unleashing Sophisticated Knowledge • Empowering Epoch-propeller	CPDC	-	OD
29-Jun-16	Young or Ready Series 6: A Route to become a Professional Civil Engineer	CVD	Ir S S KONG	GPG
30-Jun-16	Joint Professional Networking Party 2016 – Hawaii Aloha	YCPG	-	PRG
30-Jun-16	Introduction to General Conditions of Contract for Civil Engineering Works (1999 Edition)	-	Ir WONG Kwong Yui	SG
9-Jul-16	Future Engineers Project - Energising Our Future City	ASHRAE-YMC, ICE HKA G&S, IET-YMS, IMechE-YMS	Mr. YAM Wing Kin, Xavier	SEG
9-Jul-16	Technical Visit to MTR Tsing Yi Operation Control Centre	-	-	VG
16-Jul-16	Technical Visit to Central-Wan Chai Bypass	-	-	VG
25-Jul-16	SMART Logistics and Transportation	LTD	Ms. HO Ka Man, Mandy Ms. LAU Yan Chi, Sarah	SG
28-Aug-16	Elderly Home Visit - Mid-Autumn Festival	Banyan Elderly Service Association, LTD, Well Family Charity Foundation Limited	-	CSG
13-Sep-16	Workshop on Dragon Boat Culture and technique	-	Mr. C K CHAN Mr. H M CHOW, Winson	SRG
17-Sep-16	Technical Visit to CLP Smart Grid Experience Centre	END	-	VG
18-Sep-16	HKIE-YMC Helper Reunion Day	-	-	HRG
20-Sep-16	Technical Seminar on Fire Safety of Old Industrial Buildings	-	Ir Anthony LAM Chun Man	SG
24-Sep-16	Heritage Tour – Mei Ho House	-	-	CAG
24-Sep-16	Technical Visit to Steel Fabrication and Logistic Centre at Ping Che	-	-	VG
26-Sep-16	Young or Ready Series: A Route to become a Professional Structural Engineer	STD	Ir Ken NG Kin-shing	GPG
5-Oct-16	Career Talk in BS Discipline	SC-IVE ST	Ir Antonio CHAN Ms. Candy FUNG Mr. Henry WAI	SPG
20-Oct-16	EVD Reach-out session to HKIE young members	EVD	Ir Elvis AU Miss Anissa WONG	YMC
22-Oct-16	HKIE-YMC Helper Orientation cum Training - Skills and Integrity in Organising Activities	-	Ir Ringo YU Mr. Parlett CHANG Ms. Candy FUNG	HRG
23-Oct-16	Sowers Action Challenging 12 Hours Charity Marathon 2016 – Team YMC	Sowers Action	-	CSG
24-Oct-16	Safety Series – Building Design and Maintainability (with Construction Design Management and Safety for Design)	SSC	Mr. Isaac CHEUNG Ms. Jonnie LEUNG	GPG
27-Oct-16	Career Talk to Foundation Diploma Students in IVE-HW	SC-IVE HW	Ir C S LAM Mr. Benjamin LAM Mr. C C TANG Mr. Dick YAN	SPG
28-Oct-16	Seminar - Innovative Structural Design of Long Span Steel Footbridge	Joint Structural Division	Ir Kelvin LAM Dr. Y P LIU	SG
4-Nov-16	Career Talk to Foundation Diploma Students in IVE-HW	SC-IVE HW	Ir Alan CHAN Ir Raymond MAK Mr. Benjamin LAM Mr. C M SIU	SPG
5-Nov-16	HKIE-YMC Helper Training - Introductory Session of “The 7 Habits of Highly Effective People”	-	Ms. Sharon LUI	HRG
5-Nov-16	Technical Visit to a World-class Electronics Assembly and Testing Centre	-	-	VG
7-Nov-16	Technical Seminar – How to Turn Complaints into Opportunities	-	Ir Pak Kin CHEUNG	SG

Continued...

Date	Event	Jointly Organised	Speaker	Group
14-Nov-16	Career Talk in Mechanical & Electrical Engineering and Information & System Engineering	SC-CU	Ir Raymond LUI Mr. Dick YAN Ms. Hidy YAN	SPG
15-Nov-16	Smart Grid to Support Green Motoring in Hong Kong	END	Mr. Edmond CHAN	SG
16-Nov-16	Technical Seminar on Combined Heating and Power System	EGD	Ir Don CHENG	SG
21-Nov-16	Workshop on Professional Writing	CPDC	Ir Dr. F C CHAN	GPG
26-Nov-16	Heritage Tour – Lui Seng Chun	-	-	CAG
26-Nov-16	HKIE-YMC Helper Training - Emcee and Crisis Management Workshop	-	Ir Dr. F C CHAN Mr. Peter H W WONG	HRG
3-Dec-16	HKIE-YMC Helper Training - Business Etiquette Class	-	Ms. Angel PANG	HRG
6-Dec-16	Technical Seminar on Central Kowloon Route	-	Ir Eric CHAN Kar Lock	SG
9-Dec-16	Joint Society Christmas Party 2016	AES-YES, ASHRAE-YMC, ICE HKA G&S, IET-YMS, IMechE-YMS, HKIPE, HKIPM-YMC	-	PRG
9-Dec-16	Career Talk for Info Day	SC-IVE HW	Ir Raymond MAK Ms. Grace TAM	SPG
10-Dec-16	Winter Elderly Home Visit 2016	Yang Memorial Methodist Social Service	-	CSG
13-Dec-16	Wonders of Underwater World of Raja Ampat, Indonesia through the Lens!	CUHK. Supported by MCD	Mr. Parnupong NORA-SETHKAMOL	CAG
17-Dec-16	Team Building Workshop – Engineers Become Running Man	CPDC	-	OPG
19-Dec-16	Career Talk: ‘Your First Permanent Job’	SC-IVE ST	Ms. Samantha CHENG Mr. Samson FUNG Mr. Eric KWOK Mr. Jimmy LEUNG	SPG
5-Jan-17	Volunteering Skills Training - Sign language Course (jointly organised by CPDC and YMC)	CPDC	Mr. WANG Kai-fung	CSG
5-Jan to 10-Jan-17	陝西省工程文化考察團	-	-	MD
7-Jan to 8-Jan-17	“Lead Your Future” – 2-Day-1-Night Leadership Training Camp	CPDC	-	SPG
6-Jan-17	The Roles of Continuous Education for Career Development in Hong Kong Industry with Successful Case Sharing	IMechE, IVE, MID, MIES IET	Ir Dr. Y C CHAU, Ir Dr. Jackson TANG Ir Peter SI Dr. C M WONG Ms. FUNG Ka Wing Mr. Torin W T FUNG Mr. Vincent FUNG Ms. Fanny TANG	YMC
7-Jan-17	Technical Visit to HKEx Next Generation Data Centre	-	-	VG
8-Jan-17	Green Carnival 2017	Green Council	-	SRG
13-Jan-17	Joint Professional New Year Gathering	HKIA, HKIS	Mr. Tony IP	PRG
14-Jan-17	Handmade Workshop of Leather Name Card Holder	-	-	CAG
15-Jan-17	Volunteer Recruitment - Hong Kong Annual Archery Championships for the Disabled 2017	Hong Kong Paralympic Committee, & Sports Association for the Physically Disabled	-	CSG
17-Jan-17	Young or Ready Series: Dialogue with Experienced Building Services Engineers	BSD	-	GPG
17-Jan-17	Technical Seminar on Expert Witness Experience – Reconstruction and Discovery the Scene of Traffic Accident via Mechanical Knowledge	MMNC, Supported by ASME, CILT, HKARMS, IMechE, PolyU	Ir LO Kok Keung	SG
20-Jan-17	Technical Seminar on Drone Safety	MCD	Dr. Edwin C K CHAN	SG
21-Jan-17	OD2017 Series: Technical Visit to Jockey Club Museum of Climate Change (MoCC)	CPDC	-	OD
24-Jan-17	Engineer’s Voice - Discussion Forum: Healthcare Solutions with Advanced Technology towards a Brighter Silvery Life	CPDC	Mr. Joe WONG	SAG

List of Awards of Session 2016/2017

The Outstanding Helper Awards

The **Outstanding Helper Awards** are awarded to helpers who have made significant contributions to the organisation of activities of the YMC throughout the Session. A certificate will be presented during the YMC Annual Dinner.

Awardee	Organisation of Awardee
Mr. Anson CHAN Tak Chun	CLP Power Hong Kong Limited
Ms. Dorothy CHAN Wang Yi	CLP Engineering Limited
Mr. Martin CHAN Pak Him	ATAL Engineering Limited
Mr. Henry CHAU Hing Lung	Belton Technology Group Limited
Ms. CHENG Man Yee	Electrical and Mechanical Services Department
Ms. Celia CHENG So Yan	ATAL Engineering Limited
Mr. CHUNG Ka Chun	WSP Parsons Brinckerhoff
Mr. Samson FUNG Chun Kwok	Electrical and Mechanical Services Department
Mr. HUI Kiu Fai	Build King Holdings Limited
Ms. Lilian KWAN Ho Yu	Electrical and Mechanical Services Department
Ms. Crystal KWAN Cheuk Hei	CLP Power Hong Kong Limited
Mr. Thomas LAM Chun Ho	CLP Power Hong Kong Limited
Ms. Lanny LAM Hi Fong	The Hong Kong and China Gas Company Limited
Mr. Gary LAM Hok Hin	Electrical and Mechanical Services Department
Mr. Joe LAM Ka Chun	ATAL Engineering Limited
Ir Brian LAU Chin Chung	Black & Veatch Hong Kong Limited
Ms. Michelle LAW Ting Fung	Electrical and Mechanical Services Department
Mr. Nicholas LEE	Electrical and Mechanical Services Department
Ms. Shirley LEE Hang Ling	CLP Power Hong Kong Limited
Mr. Tony LEUNG Hin Yiu	Wings & Associates Consulting Engineers Limited
Ir Thomson LEUNG Kwai Yeung	China Geo Engineering Corporation
