Platforms:	<p>(a) Face-to-Face (Chan Yat Mei Sophie Room, 9/F, The HKIE Headquarters) (Limited number of seats with social distancing.)</p> <p>(b) Online (The ZOOM webinar link and information will be sent through email upon successful registration.)</p>
Talk:	“Smart Technologies Driving Sustainable Smart Cities”
Speaker:	<p>Dr Winnie Tang, MH, JP</p> <p>Dr Winnie Tang, MH, JP is an Adjunct Professor, School of Computing and Data Science; Department of Geography, Faculty of Social Sciences, The University of Hong Kong (HKU). She is one of the local born IT entrepreneurs from Hong Kong. In the 1990s, Dr. Tang founded Esri China (Hong Kong) Limited to develop and promote Geographic Information System (GIS) software and solutions. She is also the Founder and Honorary President of Smart City Consortium, as well as the Founding Vice President of The Greater Bay Area Low-Altitude Economy Alliance. Over the years, she has been actively advocating the use of technology and sharing her views regarding the ICT industry, eHealth, environmental conservation, entrepreneurship and smart city through her services in government and non-government organizations in Hong Kong.</p>
Highlights:	<p>The global environment is changing rapidly, and technology is shaping a new phase of development for smart cities. The idea behind smart cities is to use technology and data to make better decisions, improve our quality of life, and create a sustainable future. Dr. Winnie Tang will share her insights on how to leverage geospatial intelligence and cutting-edge technologies to establish people-centered and sustainable smart cities.</p> <p>This sharing will cover:</p> <ul style="list-style-type: none"> • Global trends of smart cities • The journey of Hong Kong towards a smart city • How emerging technologies empower informed decision-making • What’s next for smart city
Language:	Cantonese
